-Our Monastery-

St. Joseph's Abbey is home to a community of Trappist monks.

Following the Benedictine tradition of *ora et labora* (pray and work), the monks pursue a simple life of contemplative prayer, manual labor and hospitality. Along with the beer they make at the brewery the monks make jams and jellies at Trappist Preserves and liturgical vestments at the Holy Rood Guild. They also offer retreats and have church services throughout the day which are open to the public.

The "Authentic Trappist Product" (ATP) logo is granted by the International Trappist Association (ITA) and certifies that the brewing takes place within the walls of a Trappist monastery, that the monks take responsibility for the beer production and that profits provide for the needs of the monastic community and its charitable outreach.
